Professional Summary

MCA post-graduate and Java Full Stack Developer skilled in building scalable web applications using Spring Boot, Hibernate, PostgreSQL, RESTful APIs, and Microservices. Passionate about writing efficient, clean code, solving complex problems, and collaborating in Agile teams.

Education

Rajarshi Shahu Institute Of Management, Sambhajinagar

August 2022 - July 2024

Masters In Computer Applications (MCA) (CGPA of 8)

SambhajiNagar, India

B.P.Sulakhe College, Barshi

July 2019- June 2022

Bachelors In Computer Applications (BCA) (CGPA 8.5)

Barshi, India

Projects

Hospital Management System | Java, Spring-boot, PostgreSQL, Swagger

- * Developed a web-based hospital management system using Spring Boot and PostgreSQL to streamline patient data management and appointment scheduling.
- * Implemented user authentication and role-based access control for administrators, doctors, and receptionists.
- * Built separate sections to handle patient records, appointments, and bills, making hospital work faster and more organized.
- * Used APIs to securely save and retrieve data from the PostgreSQL database.
- * GitHub Repository: Hospital Management System

Product and Category API Building | Spring Boot, MySql, Postman

- * Designed an API's for to store the products by their category
- * Implemented database connectivity with JDBC, enabling data retrieval, storage, and manipulation.
- * Leveraged object-oriented design patterns to manage products, get all the product in that perticular category, and store the products in different different categories.
- * Used Postman tool to test the API, tested by creating JSON object and stored products by their category in MySql database

Certifications

Qspiders Ed-Tech Pvt ltd

September 2024 - Present

Java FullStack Development

Pune, India

- Learned and honed OOPs concepts, Exception handling, Collections framework, and Multithreading.
- Hands on experience in **Oracle SQL**, writing complex queries, joins, and optimizing database performance.
- Hands on experience in implementing **JDBC** API and **Hibernate** ORM for seamless interaction between Java applications and databases for efficient data handling.
- Experience in designing responsive web pages using HTML and CSS to enhance user experience.

Plute-Coder Training Institute

July 2021 - January 2022

Trainee

Pune, India

- Learned core concepts of operating systems, memory management, and process scheduling.
- Gained knowledge of networking protocols and had hands-on experience in writing SQL queries.

Course

Web Developement From Udemy EdTech.

Computer Science Crash Course by DIIT.

Extra Curricular and Interests

- * Participated in more than 10+ College Coding Hackthons.
- * Awarded Second Best Project in the IT Department for outstanding performance in the final year project.
- * Interest: Networking, speaking or sharing knowledge through mentorship.

Technical Skills

Programming Languages: Java, Oracle-SQL, PL-SQL, Html, CSS, PostgreSQL, MySql,

Frameworks: Spring Boot, Hibernate, JDBC, Spring MVC

Databases: PostgreSQL, MySQL, Oracle

Tools: IntelliJ IDEA, VS Code, Eclipse, GitHub, Postman, SQLPlus
