Pune, Maharashtra • mayurthakare3000@gmail.com • linkedin.com/in/themayurthakare

I'm a recent Computer Science graduate with a strong foundation in Java programming and backend development. During my studies, I built several Java-based projects, including a student management system and an e-commerce platform backend using Spring Boot. I'm passionate about solving real-world problems through technology, and I'm eager to apply my skills in a professional environment. I'm actively seeking entry-level opportunities in Java development where I can grow my skills and contribute to impactful projects. Open to internships and junior developer roles.
